

TECHNICAL INFORMATION SHEET **TSR 112**

DESCRIPTION

A caustic-free Traffic Film Remover and Degreaser Detergent containing a blend of surface active agents, sequestering agents, corrosion inhibitor and rinse aid.

APPLICATION

For the exterior cleaning of cars and commercial vehicles. Removes traffic film, oil and grease. Can be safely used with a high pressure cleaner for vehicle body washing. Quick-break emulsifying action makes this product ideal for chassis cleaning and degreasing, when used with a hot water pressure cleaner or steam cleaner

METHOD OF USE

Product is normally applied with a high pressure washer. For vehicle body washing, the detergent control of the machine should be set to give a 1% to 3% solution, or as required. This may be adjusted according to the type of machine, extent of soiling, and other working conditions. If a hot water pressure cleaner is used, optimum performance is at a temperature of 40⁰C. The solution is applied to the vehicle starting at the bottom and working upwards. Extra care should be taken when washing in strong sunlight. Check the surface temperature, and if it feels hot to the touch, then cool down with water before applying the solution. After a suitable contact time, rinse thoroughly with high pressure water.

For best results, dry all glass with a squeegee or leather after cleaning.

For chassis cleaning, use at 1% through a hot water pressure cleaner at 75 to 85⁰C.

PACK SIZES

5 Litre containers

25 Litre and 200 Litre drums

1000 Litre I.B.C's.

TYPICAL CHARACTERISTICS

Appearance	-	Amber coloured liquid with no particular odour
pH as supplied	-	Approximately 13.0
pH 1% solution	-	Approximately 9.5
Relative density	-	1.054 @ 20 ⁰ C
Active matter	-	Approximately 15%

HEALTH AND SAFETY INFORMATION

Contact with eyes and skin should be avoided. In the event of skin contact, wash thoroughly with water. For eyes, rinse immediately and seek medical advice.

Spillages should be washed away with water to prevent a hazardous slippery surface.

For further information, please refer to our Safety data Sheet.

OTHER INFORMATION

Product conforms to European environmental and quality requirements.
