Technical Data Sheet

Chain and Drive Lubricant 400ml

APPLICATIONS:

Chain and Drive Lubricant is a scientifically developed quality lubricant for all roller chain applications. The nature of the lubricant allows for the penetration of the inner roller area of the chain and then becomes tacky, therefore preventing throw off at high speed. Chain and drive lube also resists washing off and so prevents the wear caused by the friction of a dry chain. Contains high performance extreme pressure and anti fling additives.

DIRECTIONS:

Shake can well before use. Spray along the full length of the chain and rotate slowly to allow full penetration, allow to stand for a few minutes before use.

HEALTH & SAFETY:

Highly Flammable

Keep away from sources of ignition - No smoking.

Do not breathe vapour / spray.

Use only in well-ventilated areas.

Keep out of reach of children.

PHYSICAL PROPERTIES:

State	Aerosol
Colour	Yellow / Brown
Odour	Characteristic
Solubility in water	Insoluble
Specific Density @ 20°C	0.835
Flash Point	3°C.
Temperature Range	- 30°C to +150°C.
