## **Technical Data Sheet**

### **Open Gear and Wire rope Lube-400ml**

#### APPLICATIONS:

Open Gear and Wire Rope Lubricant is a quality, bitumen reinforced heavy duty lubricant which is specially designed to lubricate and protect open gears and wire ropes. It is formulated for all exposed gears, steel cables, chains and other moving parts and will not be thrown off during use. The solvent content allows penetration into wire ropes and gear chains to give deep effective lubrication. The dried film shows excellent water wash resistance and makes this high performance product ideal for applications exposed to the elements.

#### DIRECTIONS:

Spray directly onto stationary parts from a distance of 10 to 20cm. The highly directional actuator ensures accurate positioning of the lubricant. Allow product to penetrate and solvent to evaporate before activating machinery.

#### HEALTH & SAFETY:

Highly Flammable

Keep away from sources of ignition - No smoking.

Do not breathe vapour / spray.

Use only in well-ventilated areas.

Keep out of reach of children.

#### PHYSICAL PROPERTIES:

State	Aerosol
Colour	Black
Odour	Characteristic
Solubility in water	Insoluble
Specific Density @ 20°C	0.915
Flash Point	4°C.
Temperature Range	- 10°C to +100°C.
