

Instructions for using Actioil as a Fuel Treatment

- 1. Ensure fuel tank is between a quarter and a third full.**
- 2. Change fuel filter before treatment.**
- 3. Add 1 litre of Actioil for each 100 litres of tank capacity**
- 4. Leave tank with fuel and Actioil sit for 2 hours**
- 5. Run engine at 1000 rpm for 15 minutes**
- 6. Completely fill fuel tank.**
- 7. Drive vehicle as normal.**
