

MOTO CHAIN PASTE

Very high performance paste for motorcycle chains.

USE

Motorcycle application

Recommendations

- Specially designed for greasing transmission chains (all types of motorcycles).
- Fully suitable for different conditions (road and competition, on and off-road).
- Particularly recommended when the chain is subjected to very high stresses and to which external pollution is added (mud, water, etc.).

CUSTOMER ADVANTAGES

- **Proven performance**
 - **Extended chain life**
 - **Anti-corrosion**
 - **Water resistance**
 - **Shear resistance**
 - **Economical**
- Successfully tested during the 99/2000 Motorcycle Grand Prix season: "the product adheres well to the chain and does not splash".
 - The use of ELF MOTO CHAIN PASTE prolongs chain life.
 - The paste provides maximum protection against chain corrosion.
 - ELF MOTO CHAIN PASTE is insoluble in water, even salty water.
 - ELF MOTO CHAIN PASTE has a very high shear resistance for maximum chain protection.
 - A thin film of ELF MOTO CHAIN PASTE is sufficient.

PROPERTIES

PROPERTIES	MOTO CHAIN PASTE	
Colour	Light beige	
Type of soap/grease	Calcium complex	
Drop point	> 250 °C	
Density at 15°C	930	kg/dm ³
Worked penetration 60 strokes at 25°C	325	1/10 mm
